

## Item Cost Wizard

### Benefits

- Easy to use
- Configures itself to your system setup
- Close to zero implementation effort
- Easy to customize
- Cuts down data entry time
- Eliminates re-keying errors
- Errors are quickly fixed and reload in minimal time
- No need to log into Oracle Applications

### Feature Overview

- Forms assist with data entry validation and error correction
- Full LOVs available on forms
- Supports Sub-Element Updates
- Two way interface between Excel and Oracle
- Load one, a selected range or all item cost information from the worksheet
- Ability to use formulas in place of values

*Item Cost Wizard allows you to maintain your Oracle Inventory Item Costs from Excel. Forget about manual data entry when you can now download item cost information into Excel, make the necessary changes using the flexibility of Excel and then upload the changes directly into Oracle Inventory. It is robust, fast, easy to use and flexible.*

Enjoy the smoothest integration from your desktop to Oracle Inventory.

UPLOAD RESULTS				Organization		Item		Cost Controls
Group ID	Upload Result	Item Cost Message	Item Cost Interface ID	Inventory Org Code	Cost Type	Item	Item Description	Based On Rollup

11892556	Validated			M1	Current	AS18947	Sentinel Deluxe Deskto	Yes

### Architecture

- Compatible with Microsoft Excel 2000 and later versions
- R11i to R12
- Uses Oracle Applications function security
- XML Web-based Communication
- No client install
- Install and setup in minutes

## Cost Header

- Use Standard and user Defined Standard Costs
- Change costs type to no longer be based on rollup
- Review current costing information, including last purchase price and last invoice price.
- Fields are validated using list of values
- Fields are color coded to indicate if mandatory or optional
- Most fields are optional and can be deleted from worksheet.

## Cost Elements

- Add your cost elements with their sub elements
- Enter Activity and Basis information
- Provide rate details
- Supports descriptive flexfield details against the cost elements.

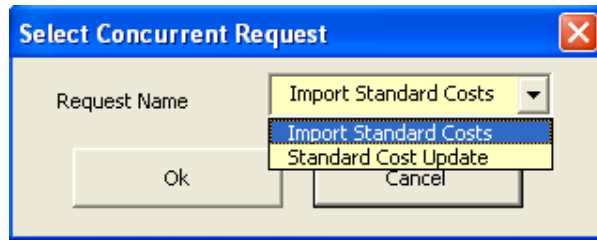

## Download Cost Information

- Download cost details from Oracle or from the Interface table
- Includes on-hand quantities, last purchase and invoice pricing and current cost details

## Submission Options

When submitting an interface concurrent request you have the following options:

- Import Standard Costs: imports cost types and items loaded against a group ID

OR

- Run Standard Cost Update: copies the cost type and sets it to be the frozen cost.

## Example Worksheet

Below is an example of the Item Cost Wizard worksheet, showing several item costs being loaded into Oracle Inventory.

The status columns enable the user to quickly see the progress of the records. You can see that three item costs have been successfully loaded and one has been rejected. The rejected row can be quickly corrected and loaded.
