

Routing Wizard

Routing Wizard is the only Excel based loader tool available for Oracle Bill of Material Routings. It is robust, fast, easy to use and flexible. Harness the full power of MS-Excel's productivity features to create, update and delete Routings quickly and easily.

Use Excel to download your Routing Information as the basis for new Routings or to make changes to existing Routings.

Benefits

- Fast and easy to use
- Configures itself to your system setup
- Close to zero implementation effort
- Easy to customize
- Cuts down data entry time
- Eliminates re-keying errors
- Correct errors quickly and reload in minimal time

Feature Overview

- Create or maintain any number of routings and operations
- Download routings for maintenance or as basis for new routings
- Create routing revisions
- Ability to delete resources
- Add or end-date operations within a routing
- Validate information prior to loading into Oracle
- Validation messages returned to the worksheet
