WildWing Android Applications for Oracle E-Business Suite

The WildWing suite of applications is coming soon!

We've proved it can be done and now we are building applications for you to use on your Android device (phone or tablet). The initial product range is now in pre-release with a full release scheduled for Quarter 2 of 2012.

Imagine looking up item details, submitting miscellaneous transactions or receipting a purchase order from a remote location using your Android phone or tablet.

Architecture

- Compatible with Android 2.1 and later
- Simple .apk Android application install
- Install and setup in minutes
- Connects with R11i to R12 of Oracle E-Business Suite
- XML Web-based Communication
- Log in using Oracle E-Business Suite Authentication
